

## White-Glove Setup & Installation

LiteZilla's premium White-Glove Setup & Installation service ensures your unit is installed professionally, accurately, and with complete attention to detail.

This service covers everything—from uncrating and positioning to full assembly, secure installation, and final cleanup—so your team can focus on the experience, not the logistics.

We partner with **Proxy Retail**, a nationally recognized leader in professional installation and project management. Their experienced teams bring proven expertise, nationwide coverage, and a reputation for precision. Every installation is completed to LiteZilla's exact standards for consistency, safety, and long-term performance.

### What's Included:

- **Pre-Installation Consultation** – A team member confirms site readiness and reviews any special considerations
- **Professional Handling** – Careful uncrating, movement, and placement of your unit
- **Expert Installation** – Secure assembly and installation per LiteZilla specifications
- **Material Disposal & Cleanup** – All packaging is removed, leaving the space clean and ready for use
